- 19 A Set of single Microscopes fitted with Ivory and Silver.
- 20 A small reflecting Telescope with a Stand.

- 21 A double set of Microscopes compleat, in a Fish-skin Case.
- 22 A small Hand Air-pump with its Glasses.
- 23 A Cylinder of Metal with a Picture to it representing a *Venus*.
- 24 A Coach-way Wiser to measure the Roads.
- 25 A large Egg-lamp mounted on a large brass Foot and Stand.
- 26 An Instrument to take Distance at one Station in a Case.
- 27 A small double Microscope in Brass, in a fish-skin Case with Lock and Key.
- 28 *Delamain's* Horizontal pocket Quadrant, and a Book of its Use, by *Hen, Sutton*.
- 29 A small Theodolite in a Case with a hard wood Staff, Ball and Socket compleat, lackered and silvered.
- 30 An Instrument for casting up large Sums of Money by *Sir Samuel Moreland*.
- 31 Two of *Brown's* triangular Quadrants, one a foot and one 3 foot radius in a Case, with a Book of the Uses.
- 32 A Cube of 4 Glass plains, on which is engrav'd 4 Dials and Compass, and a Globe fixt for a polar Dial.
- 33 A curious turning Laith for a Gentleman to turn Brass, Ivory or Wood with a neat brass Wheel.
- * 33 *Ditto*.
- 34 An universal Dial so contrived as to show the Hour of the Day, Azimuth, Altitude, Declination of the Sun with its Place in the Ecliptick, the Variation of the Compass and Equation of Time.
- 35 A large Level with double Telescopes and joynted Sights in a mahogany Case, with a brass headed Staff in a leather Bag.
- 36 Five regular Bodies with the Cone, Pyramid, Prism, Cylinder, Sphere, and the Cube of 8 Solids.
- 37 A large silver Case of Instruments.
- 38 An astronomical Quadrant with double Telescopes and Rackwork 3 foot Radius.

- * 38 A large Magazine of Instruments in a mahogany Case for all parts of practical Mathematicks.
- 39 A large and beautiful Orrery in an armillary Sphere which by turning a Handle represents the Motions of the Planets, the Eclipses of the Sun and Moon with Indexes to shew the Retrogradations of the Planets, as also their Helio-centric and Geocentric Places.
- 40 A glass Sphere with all the Constellations of the fix'd Stars drawn upon it, and within the Sphere a Terrestrial Globe which moves by Wheel work, whereby all the Phenomina of the fix'd Stars in different Latitudes are illustrated.
- 41 A curious wheel Barometer compleat, and Thermometer fitted in the best Manner in walnut-tree Frame.
- 42 A Newtonian Telescope by Reflection neatly fitted up in a Mahogany Case two Foot in length.
- 43 A curious set of glass Pumps, whereby the Nature of Pumps and Engines are easily conceiv'd by seeing all the Valves work.
- 44 An Universal Dial with Indexes for shewing the Hour and Minute in any Latitude, also an Horizontal and Vertical Motion by Wheel and Pinion, Spirit Levels for placing it Horizontal, a Compass for showing the Variation, all beautifully finish'd in an Octangular Box.
- 45 A Convex Mirrour 8 Inches diameter, in a black Frame.
- 46 A small Glass with a Spring that flies out forwards.
- 47 An artificial Storm.
- 48 A small shagreen Case of silver mathematical Instruments.
- 49 A Telescope of 4 foot in Length, with a shagreen Outside and silver Ends compleat.
- 50 A small pocket Perspective in shagreen and silver Ends.
- 51 A large portable Camera Obscura in a wainscot Box.

- 52 *A small pocket Set of Microscopes in a shagreen Case Brafs.*
- 53 *A large Picture optically deformed shewn right by a Cone of Metal.*
- 54 *A small pocket set of silver Microscopes in a shagreen Case,*
- 55 *A new improved double Microscope in a wainscot Box.*
- 56 *A Concave Mirrour, and a plain one for Travelling in a walnut tree Case with a stand to it.*
- 57 *A large concave Mirrour and a plain one in a fish-skin Case, and a small Prospect.*
- 58 *A large Relt for a long Telescope.*
- 59 *An Oval silver Snuff-box with a reading Glafs to it.*
- 60 *A compleat Theodolite with plain Sights and Telescope Sights, and a brafs Head Staff, in a wainscot Case.*
- 61 *Four glafs Plains fixt in Frames for drawing Perspective.*
- 62 *A large Cross with jointed Sights, and a Socket for fitting a stick in, contrived for the Pocket to be used in setting out Walls, or measuring Off-sets in Surveying.*
- 63 *A curious Barometer and Thermometer with a Contrivance to measure the Height of the Mercury in the Barometer, invented by the Rev. Dr. Derham, and made by Mr. Hawksbée.*
- 64 *A large Loadstone unset, which is able to attract a Needle at 4 Inches distance, so as to make it stand on end through a Plate of Silver.*
- 65 *A new invented brafs Microscope with the Apparatus thereto belonging.*
- 66 *A large shagreen silver Case of mathematical Instruments.*
- 67 *A Pocket-way Wiser in a silver Case.*
- 68 *A small Loadstone.*
